

# VERY LIGHT

Very Light Magazine is a magazine of The Antique & Historical Arms Collectors Guild of Victoria, Inc

No 144 February 2025

---

## **Important Notice re Licence Applications, Renewals and PTAs**

While the Guild offers email as one method of processing these, **members are advised that photographs of PTAs, licence applications or renewals will no longer be accepted.** Members must submit these for signature by a Nominated Officer in one of the following three ways

1. In hard copy with a stamped envelope addressed to either L&RD or for return to the member.
2. In a scanned PDF format, or
3. In the original .rtf (Rich Text Format) which is the file type used by dealers in their use of the online process created by L&RD. In fact this format is preferred as it is the quickest method for nominated officers to process the form and send it back to the member.

Of course members can always bring the forms to one of our monthly meetings for signature.

Members are requested to submit licence renewals, licence applications and Permits to Acquire requiring the signature of a Nominated Officer to the Guild at PO Box 2976 Cheltenham, 3192, or by email to [cupfire1@ozemail.com.au](mailto:cupfire1@ozemail.com.au)

If there are any questions re this change the Secretary can be contacted on (03) 9584 2907 or by email at [cupfire1@ozemail.com.au](mailto:cupfire1@ozemail.com.au)

## **Guild Meetings on Public Holidays**

Sometimes the monthly Guild meeting which is always held on the last Monday of every month (except December) coincides with a public holiday. Most often, as with 2025, this occurred on the Australia Day holiday. In some years it may also coincide with the Anzac Day holiday. Also this sometimes occurs for the Easter Monday holiday. We remind members that when this happens our Monday meeting on the last Monday of the month still remains on that day even if it is a public holiday.

### **Special Notice re *Caps & Flints***

Please note that the next *Caps & Flints* is expected for publication in August 2025.

Thanks to all our previous authors and advertisers. The authors of articles prepared for *Caps & Flints* are vital to the success of this publication. Please accept the appreciation of the editors and all Guild members for the willingness to share knowledge and time by creating the articles we all read in each volume.

We would be pleased to have contributions from a wider range of collecting disciplines than previously. For example, only a limited number of articles about edged weapons have appeared in *Caps & Flints* over the past five years. Informative articles about these and other topics, such as cartridge collecting, would be very welcome. Reviews of new and relevant books will also be appreciated.

Whatever your specialty area, spread the word and help develop interest and knowledge in the antique and historical arms collecting fraternity. Become an author in your field of interest and add your name to the list of authors.

Fred & Diana Bienvenu, – Editors.

### **The dates of the Monday Meetings in 2025**

The dates for the Guild Monday Meetings in 2025 are February 24, March 31, April 28, May 26, June 30, July 28, August (AGM) 25, September 29, October 27 and November 24.

### **Notice Regarding Security and Safety at Meetings**

We note that while it is pleasing to see increasing attendance at the Monday night meetings there has been a slackening of necessary security measures by members presenting displays.

Accordingly the Committee has resolved that –

1. All registerable firearms displayed must have either cable ties locking their actions, or trigger locks, or be firmly affixed to the table by locked cables, and the display must be attended at all times. The Guild has some cables and locks and these can be supplied if requested.
2. In regard to ammunition the sale of ammunition by individual members who do not possess the necessary WorkSafe permit to sell cartridge ammunition is banned.

This does not apply to licensed dealers and members who hold the appropriate Ammunition Collectors Licence who may be presenting displays. Any members who can sell ammunition under these conditions are reminded that they need to physically confirm that the purchaser has the appropriate licence before a sale can be made.

The restrictions on ammunition display either for sale, or as part of a display is because we run the risk that someone may take a loose round and chamber it in a firearm in an unattended display. The results of that would be horrendous for the club.

We also run the risk of a spot check by a L&RD Officer. This has not happened in the past. However the future is uncertain we must assume a visit will only be looking for trouble.

### **Attendance and Participation in Monday Night Meetings**

#### **THE COMMITTEE HAS MADE ALL MONDAY MEETINGS BUY AND SELL NIGHTS**

Besides presenting displays we encourage members to bring along items for sale which can include exempt firearms i.e. pre-1900 genuine antiques like single shot percussion pistols, flintlocks etc. and other types of exempt firearms such as longarms taking obsolete ammunition.

We remind members that it would be helpful if we could have some volunteers to help set up the hall before our normal start time of 7.00 PM.

### **Guild Meetings - Monday 27/1/2025**

The January meeting was only lightly attended which, given that the weather was OK, was disappointing. Nevertheless there were some interesting displays including a selection of Whitworth rifles and a Viking sword.

### **Request for Information**

I am a long-standing member of NZAHAA and a previous member (1968/69) of the Arms Collectors Guild of Victoria when meetings were held in Hawthorn. I am researching Colt Navies and am seeking some information on Navy #2 (photos credited to Neil Speed) shown on page 184 of "Colonel Colt London" by Joseph G Rosa. I have a similar revolver #7 and wish to compare details, if possible, with the current owner of #2.

Contact Ron Woods 103 Shields Street, Clyde 9330, New Zealand, [gundoc@xtra.co.nz](mailto:gundoc@xtra.co.nz)

## **FOR SALE**
